

Grosse Pointe Yacht Club grows partnership with Challenge the Wind

By Melissa Walsh
Staff Writer

GROSSE POINTE SHORES AND DETROIT — Grosse Pointe Yacht Club Sailing Director Wally Cross believes when kids have accessibility to sailing, they have accessibility to fun.

"If there's an easy, affordable way for kids to sail, they would do it," he said.

Detroit's Challenge the Wind program has been working to provide sailing accessibility to kids more than 20 years, a goal shared by GPYC's Grosse Pointe Youth Nautical Education Foundation since its founding in 2009.

The past few years, a partnership between the two has led a growing number of children in Detroit to discover the joy in sailing.

Harry Jones, who began working with Grayhaven Sail Club's Challenge the Wind Program at Kean's Marina in 2011, said it was 2012 when GPYNEF's Jim Morrow and Ted Everingham asked to discuss the two-week youth sailing program he was running.

"We had a meeting at the Bayview Yacht Club," Jones explained. "And I took them through a 10-year plan. It was a pretty optimistic plan for what we had at that point in time. We just moved to three boats and one other instructor. So we were still pretty small. We had been doing it for a couple years and I guess they had been watching and they said, 'We trust that you guys know what you're doing and we want to help you.'"

Jones said the meeting focused on the common mission of getting young

Challenge the Wind lead instructors Bill Lane, left, and Harry Jones, in "Opti Bay" at the program's new location at Detroit Boat Club.

people, who would not otherwise have the opportunity, involved in the sport of sailing.

To expand its program to more students, CTW required space to grow. With the help of GPYNEF, Jones said, this season CTW moved from Kean's Marina to the Detroit Boat Club on Belle Isle.

"We wouldn't be doing this if it weren't for the foundation," Jones said. "They really embraced us, helped us. I sort of joke with my instructors that we've got a couple of benefactors — Kean's Marina and Grosse Pointe Youth Nautical Education Foundation. But the Grosse Pointe (Youth Nautical Education) Foundation, whenever we have a problem, they're quite willing to step in and help us solve it and part of that was getting here. Kean's was wonderful to us, but we were getting too land-locked."

Jones dubs the calm, secluded waterway in front of Detroit Boat Club "Opti Bay."

"It's enclosed on three sides so it's an extremely safe place to let pre-

teens have at it, figure it out," Jones said, adding the program operates with about 20 boats in the bay, including a safety boat and seven instructors.

"We had them sailing on their own in three days," Jones said. "That just confirmed that this is just such a nice place to do the instruction."

"It's just a nice corner for sailors," said Cross, who expects junior sailors from Grosse Pointe Yacht Club will visit Detroit Boat Club and sail its harbor with CTW junior sailors.

"We provide a lot of the assets," added Cross, "but Harry Jones got Home Depot to provide wood for the dock and we got a group of guys together to help put it together. We also got a company to provide an outboard motor for their safety boat."

In 2018, the GPYNEF donated a \$4,000 grant to CTW, as well as three floating platforms, a Tartan 10 sailboat and four additional Optimist dinghies. The foundation had previously donated four Optimist dinghies in 2017 and two

420 sailboats in 2016.

Foundation volunteers also assisted the CTW team in the logistics of settling into their new location on Belle Isle.

July 18, during the first week of the three-week CTW program, seven advanced CTW junior sailors attended a race clinic taught by Cross at the GPYC clubhouse before heading into the bay in 420s for five races teaming up with GPYC junior sailors.

"First Wally gave them a little chalk talk, how the race starts, the rules of the water," Jones explained. "Then we got them out on the water with the Grosse Pointe Yacht Club junior sailors helming the boat and our kids as crew. We did three races that way, then flipped and did the last two races with the CTW kids steering the boat at the helm."

"We're 100 percent behind Challenge the Wind and what Harry Jones is doing," said Cross. "(The CTW junior sailors) are just sponges. Their eyes are wide open."

Lauren Cochran, 17,

Grosse Pointe Yacht Club Sailing Director Wally Cross gives racing instruction to Challenge the Wind junior sailors prior to teaming with GPYC junior sailors in five races.

from Berkley, who's been sailing with CTW since she was 12, attended the race clinic.

"We had a blast," she said. "We learned some new things, like roll tacking. ... We had a lot of fun up there and I hope to do some more races with them."

Selena Cade, 16, from Pontiac, who's been sailing with CTW since age 13, added, "We got to know some other people and do five races. We got really comfortable with sailing out on the water and racing out on the water. ... It was pretty interesting and a lot of fun to go out and race."

Cochran and Cade are among the advanced

sailors in the CTW program and help Jones and his instruction team with teaching the newer students. They said they enjoyed "the pressure of racing," in that it supports mastering how to sail well.

Jones and Cross said they expect to create more opportunity for the Grosse Pointe and Detroit junior sailors to practice their sailing skills together.

The Week Ahead

THURSDAY, AUG. 16

◆ Grosse Pointe Shores movie night, dusk at Osius Park, 800 Lakeshore.

MONDAY, AUG. 20

◆ City of Grosse Pointe Council meeting, 7 p.m. in council chambers, 17147 Maumee.
◆ Grosse Pointe Woods City Council meeting, 7 p.m. at city hall, 20025 Mack Plaza.

TUESDAY, AUG. 21

◆ Grosse Pointe Shores City Council meeting, 7 p.m. at the municipal building, 795 Lakeshore.

Northeast Guidance Center CEO named Notable Woman in Health Care

Sherry McRill of Grosse Pointe Park recently was featured in Crain's special June edition, "Notable Women in Health Care." McRill, president and CEO of the Northeast Guidance Center in Detroit, holds a Master of Arts degree in counseling psychology from Oakland University and is a Michigan limited licensed psychologist with exemplary behavioral health and administrative experience in the public and private sectors.

McRill joined the NEGC team in 1989, was named vice president in 1993 and became president and CEO in 2014. Along with a committed staff, she has grown the NEGC, which employs about 150 medical professionals and support staff who provide primary and behavioral healthcare to those in need. She continues to position the agency as one of Wayne County's behavioral health providers by

adopting the integrated healthcare model for children and adults who seek NEGC services.

Under her leadership the organization's outreach now includes partnerships such as Community Outreach for Psychiatric Emergencies and Senior Reach, which provides care and resources for seniors. NEGC behavioral health specialists are a part of a Detroit Public Schools school-based behavioral initiative and Southwest Housing Solutions, which provides affordable homes for low-income residents in the Mack-Ashland area of Detroit. Under McRill's leadership, NEGC works collaboratively with Connor Corridor partners to improve the lives of community residents on Detroit's east side.

McRill is committed to position the community in which she lives. She sits on the board of directors for Jefferson East

Inc., The Salvation Army, Conner Creek and Kevin's Song, and is past president of the

Junior League of Detroit and The Family Center of Grosse Pointe and Harper Woods.
